

Invoice Auditing

Spotting Savings..
Ensuring Accuracy

- The first step is for NuEnergien to obtain access to your energy invoices, typically by using online portals and login credentials that we either create or share with you.
- Our team reviews the invoices by comparing them to our proprietary billing models, which simulate the expected calculation of the bill.
- We identify and alert you to any errors and coordinate directly with the relevant provider to ensure you receive appropriate resolution.

Ensure You Are Not Overpaying

Utility companies and third-party suppliers that bill you on a regular basis often make errors. NuEnergien has noticed various issues over the years, ranging from incorrect meter readings to mistakes in tax classification and rate application. While these errors may not be deliberate, they can still result in unnecessary costs for you.

NuEnergien employs a team of seasoned energy auditors with extensive expertise in energy billing, tariffs, and contract analysis. Our rigorous approach has successfully recovered tens of millions of dollars for clients throughout the United States across diverse commodities.

NuEnergien has returned over \$50 million dollars in refunds to clients.

Spotting errors is one challenge; reclaiming refunds is another. NuEnergien's reputation stems from our meticulous approach and our dedication to pursuing refunds through all available avenues, including escalation to state and regulatory authorities when necessary.
