

What is OK2Pay?

OK2Pay by NuEnergen is an innovative and proactive approach to invoice processing and it's revolutionizing payables processing. Market de-regulation has caused energy invoices to be overly complicated and hard to understand. NuEnergen has expertise in energy consumption, cost and tariff analysis. We review invoices for accuracy before they are paid giving you peace of mind.

STEP 1: RECEIVE & REVIEW YOUR INVOICES

We will retrieve your invoices directly from your energy provider/utility.

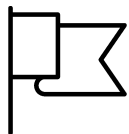

We put your invoice through a 150 step review to ensure accuracy.

We then display all of your invoice information surely within EnerTrac.

STEP 2: ELIMINATE ALL BILLING ERRORS UNTIL OK2PAY

Errors, overcharges and incorrect information is "Red Flagged" in an exception report.

Accounts Payable can either follow-up on all exceptions or have NuEnergen handle.

Correct invoices are stamped "OK2Pay" and your Accounts Payable group is notified.

STEP 3: YOUR INVOICE IS OK2PAY

Your Accounts Payable group makes the correct payment to your energy provider/utility.

BENEFITS TO YOU

- Peace of Mind
- Eliminate Late Fees
- Optimization of Cash Flow
- Billing Error Resolution

WHAT WE CHECK

70% of all energy invoices reviewed by NuEnergen contain errors needing follow-up action.
